To,  
**Prof. Vijay Navale, Lecturer In Production Technology,  
Institute of Technology Hadapsar, Pune.**

Sir,

I am very much glad after listening your program, which was aired on **Pune Akashwani on 5<sup>th</sup> of July 2004 at 9.10 a.m.** The information, which you have given through this program, is quite useful for any student who is studying in any Polytechnic.

I have personally brought my own Radio in the classroom & called our all students who are going to secure their admission in the final year of their respective course to listen this program.

The program was quite informative & definitely useful for student to find his own path after completion of his/her diploma course.

The efforts you are taking to nurture the students, & to develop their personality all the way are really admirable. I hope that you will continue to play your role with real dignity of an Ideal teacher & perform various such nice events in the days to come.

**Wishing you all the Best, with warm regards.**

Sincerely Yours

*S.G. Girme*
